

A. Read the recipe and answer the questions.

Fun Fun Morning Post22nd January 2021**A sponge cake****Ingredients**

1. 4 eggs
2. 1 tea spoon of vanilla extract
3. 300g of flour and 1 tea spoon of baking powder
4. 300g of sugar
5. 300g of softened butter
6. Pinch of salt
7. Cream (optional)

Steps :

1. Beat the eggs and sugar for twenty minutes until it turns to light yellow. In this stage, the air is incorporated. It is very important as it makes how soft the cake is.
2. Add vanilla extract and salt into the mixture.
3. Mix the flour and baking powder together.
4. Add the flour into the mixture of egg and sugar. You should add the flour separately in three times and fold it with a wooden spoon. Do not over fold, otherwise the cake will be tough. Just fold enough to ensure that the flour is mixed well with others.
5. Preheat the oven to 220°C.
6. Add the soften butter into the mixture.
7. Pour the batter evenly in the baking pan.
8. Bake the cake for about 25 minutes with the preheated 220°C oven. If you do not have an oven, you can use a rice cooker instead. It takes 30 minutes more for making the cake.
9. Let the cake cool in the pan for 10 minutes. Use a knife to run around the edges of the cake to loosen it.
10. Add some cream on top of the cake or use whatever you want, such as chocolate, Oreo to decorate the cake.
