

A. Read the following passage and answer the questions.

I have three pet fish at my home. One is an orange gold fish with a long tail. One is a silver fish with sharp fins. My favourite is the one with black and yellow stripes. As I really like fish, I bought them a big fish tank and added some beautiful stones and shells as decorations.

One day in summer, my friend, Peter, came to play at my home. He usually comes alone, but this time he brought his pet cat, Thomas, with him. "My mum and dad are not at home. I'm afraid that my cat will be lonely and hungry," he said. "No worries! Please make sure he doesn't sneak out from my room because I have fish in the living room!" I replied.

We played for a long time. It was almost 5p.m. "Thomas must be hungry! Let me give him some food...wait, where is he?" said Peter. Then I heard him shouted, "What are you doing?"

At first I thought he was shouting at me, but then I realized Thomas was actually next to my fish tank. Oh No!

But soon then, my dad came out and saw the scene. "What is happening here? Why is there a cat in my house? AH-CHOOO!" I almost forgot my dad has allergies to cats. Once he sneezed, the cat was so frightened and dropped into the water.

Since that day, I always tell my friends that my friend Peter has a swimming cat!

1. Which of the following are not inside the fish tank?

- A. Beautiful stones B. Seaweed
 C. Shells D. Fishes

2. How many people came to visit me?

- A. 1 B. 2
