三．閱讀理解：細心閱讀文章，把答案填在橫線上，選擇題 則在○內塗黑。

Banning single-use cutlery has emerged as a crucial step in combating environmental degradation. These disposable items, often made of plastic, contribute significantly to pollution and harm marine life. Governments and businesses worldwide are recognizing the urgent need to address this issue by implementing bans on single-use cutlery. Such measures promote the adoption of sustainable alternatives like reusable utensils, thereby reducing waste and conserving resources. Additionally, they raise awareness about the detrimental effects of plastic pollution on ecosystems and human health. By banning single-use cutlery, societies take a proactive stance towards creating a cleaner, healthier planet for current and future generations.

1. What is the primary concern addressed in the article?  
○ A. Deforestation ○ B. Air pollution
