## Comprehension

C. Read the passage and answer the following questions in complete sentences.

***Pets are human's best friends***

Pets are human's best friends. People coming from all over the world love to keep different kinds of pets.

Pets' love for us is unconditional. We can talk to them and they always listen to us. They are good at making us happy. Even if we do something silly, they never laugh at us. They only want to play with us. They never fight with us or play tricks on us. They always want us to pick them up at the door when we get home.

Are you interested in keeping a pet? Are you looking for a perfect one? Be sure you will love it and look after it for its whole life! It is an important lifetime promise. Because the experience is unlike trying on clothes in a boutique and then deciding whether you want to buy the clothes or not. We must never abandon them, shout at them or be bad to them.
